

## JEEVA klui Resort

Jeeva Klui reflects shades of traditional Lombok architecture to create a peaceful and calming atmosphere reminiscent of a rural Sasak village. Great care was taken to conceptualize a resort that is both socially and environmentally responsible through sensitive design and green practices. Wood and stone pathways lead through the resort to the beach, garden and pool villas and suites spread across the two hectare grounds. The Waroeng restaurant and Wallace common room fronting the beach front infinity pool and tiered wooden decks provide a gracious common area for meeting with friends or enjoying the spectacular sea views.

Jeeva Klui melds an appreciation of local architecture and tradition with the look and feel of a Robinson Crusoe idyll. Built using sustainable local materials, such as handmade terracotta tiles, bamboo weaves, stone and recycled timber, each suite and villa exudes an air of authentic sophistication. Located at the edge of the Wallace Line, Jeeva Klui's magnificent 170 meter beach front commands views across the Indian Ocean to the islands of Bali and Nusa Penida . The beach at Jeeva Klui is protected by an offshore reef immediately in front of the resort that creates calm "lagoon" perfect for snorkelling or a leisurely swim.

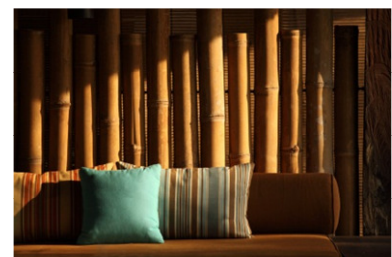

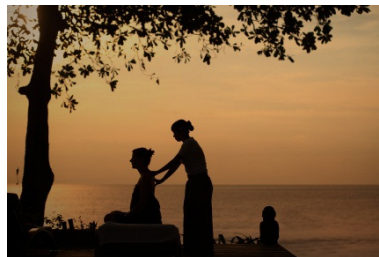

Klui Beach is located on the West coast of Lombok approximately five kilometres north of the Senggigi Beach tourist area. Jeeva Klui Resort is about an hour drive through rice paddies and along a picturesque coastal road from the new Lombok airport. The departure point to the Gili Islands and the main dock for the fast boat service to Bali is approximately a 15 minute drive up the coast from the Resort. Jeeva Klui is the only hotel located on Klui Beach.
